## EUROPE4ALL IN SHORT

[www.europe4all.net](http://www.europe4all.net)

*The project 'Europe4All - European Digital Cultural Heritage and Values for Migrant Empowerment and Inclusion in Adult Education' aims at raising awareness of the diversity of European cultural heritage and values and supporting intercultural dialogue and building mutual understanding between new arrivals and receiving communities. Young learners with and without migration backgrounds work together to create videos documenting and exploring shared experiences. Videos include a wide range of contemporary and historical examples of cultural heritage and its relevance to these experiences. By doing this, learners will open up a conversation on these values.*

The project will develop practical tools for the production of digital films by young adults with and without histories of migration together and will design materials to give adult educators specific tips on how to use the videos.
